“ I met mark a year ago and in that short time got to know him as a warm, personable guy. He was in such good shape I thought he was 30 years old. I couldn't believe it when he told me he was 42. Then her showed me a picture of his lovely family. He was so proud of them and they are a wonderfull legacy. I have lost a good friend and nothing I can say can ease the grief that his family feels. I pray that God's love surrounds them and carries them through this hard time.
